About the Sponsors

Gujarat State Biotechnology Mission (GSBTM)

GSBTM under the aegis of Department of Science and Technology, Government of Gujarat is promoting, supporting and facilitating the development of biotechnology in Gujarat state by facilitating and financing biotechnology research, generating quality human resource by training and skilling students and professionals, supporting biotechnology industries by taking effective measures and policies.

Realising the need for development of competent manpower who can nurture the science of biotechnology in Gujarat state, GSBTM built Network of Capacity Building Cell (N-BT-CBC) initially in 12 different institutes. The main aim of N-BT-CBC was to train students to be able to clear National Level Competitive examinations like IIT-JAM, GAT-B, CUCET, JGEEBILS etc. and start "Transcribing their Brighter Bio Future" career in biotechnology.

N-BT-CBCs are operated by co-ordinators and deputy co-ordinators, who are faculties in these institutions and they help in coaxing the Under Graduate and Post Graduate students for preparing and appearing in the National Competitive Exams

About the Organizers

Government Science College, Vankal

Located in the tribal region of South Gujarat, Government Science College Vankal is one of the premier public funded colleges in the state of Gujarat. The College was established by the Department of Education, Government of Gujarat in the year 2012 to provide and promote quality education to the youth coming from underprivileged tribal communities. The college is affiliated to Veer Narmad South Gujarat University, Surat.

Since its inception, the college has been playing a pivotal role in bringing about a marked change in the erstwhile underdeveloped tribal region by enrolling

around a 1000 students every academic year. Besides regular academics a number of training and skill development programs are regularly organized to enhance the competency of students.

The college has state of the art infrastructure and basic research facilities to promote all-round development of students. At present, the college boasts of its academic excellence with highly capable and dedicated faculties well versed and established in their respective disciplines and selected through GPSC.

ABOUT COLLEGE

Located in the tribal region of South Gujarat, Government Science College Vankal is one of the premier public funded colleges in the state of Gujarat. The College was established by the Department of Education, Government of Gujarat in the year 2012 to provide and promote quality education to the youth coming from underprivileged tribal communities.

The college is affiliated to Veer Narmad South Gujarat University, Surat. Since its inception, the college has been playing a pivotal role in bringing about a marked change in the erstwhile underdeveloped tribal region by enrolling around a 1000 students every academic year. Besides regular academics

a number of training and skill development programs are regularly organized to enhance the competency of students.

The college has state of the art infrastructure and basic research facilities to promote all-round development of students. At present, the college boasts of its academic excellence with highly capable and dedicated faculties well versed and established in their respective disciplines and selected through GPSC.

OVERVIEW OF WORKSHOP

Higher education (post-graduation) from an institution of national repute is a dream for all undergraduate students. However, due to limited number of seats in postgraduate courses, most of the premium institutes of research and education in the field of biology, have stringent selection norms designed to access and evaluate the subject expertise, eloquence dexterity and the grit of the students. Due to lack of enough subject knowledge and preparation for competitive exams, very few students from our state get admitted to premier institutes for post-graduation degrees. Realizing the need for imparting proper awareness regarding importance of competitive exams in life sciences and to prepare students for the same, GSBTM had started funding twelve day long intensive “CRASH WORKSHOP” at selected UG-CBC centers. The main aim of N-BT-CBC is to train students to be able to clear National Level Competitive examinations like IIT-JAM, GAT-B, CUCET, JGEEBILS etc. and start “Transcripting their Brighter Bio Future” career in biotechnology and allied areas.

N-BT-CBCs are operated by co-ordinators and deputy co-ordinators, who are faculties in these institutions and they help in coaxing the undergraduate students for preparing and appearing in the National Competitive Exams.

The Crash workshop provides 120 hours of competitive exam preparation training to final year B.Sc students for cracking national level competitive exams in the field of biotechnology and allied sciences by means of expert lectures, rigours practice tests, study material and interaction with subject experts. The workshop is free for the student participants and is wholly funded by GSBTM. The students are provided accommodation (sharing basis) and refreshments during the workshop.

The present workshop was the maiden workshop been organized by Under Graduate Capacity Building Cell (UG-CBC) of Government Science College, Vankal after getting selected as UG-CBC member in December 2022.

OBJECTIVE OF THE WORKSHOP

- To spread awareness among students about different national level competitive exams (life sciences) in which undergraduate students can appear to secure seats in post-graduation programs in premier institutes
- Introduce the student with essential and critical elements of competitive entrance exams.
- Do develop subject knowledge and analytical abilities in students
- Provide exam oriented concepts in their subject area.
